

A luxury speedboat is shown from a low angle, with two women relaxing on the deck. The boat is dark-colored with a polished finish. The women are lying down, one in a black and white polka-dot top and the other in a teal lace dress. The background shows a calm sea and a distant shoreline under a clear sky.

# Z<sup>2</sup> AZZURRO

More than just cruising

Double hull, double pleasure

Extremely Impressive

You will be amazed  
by Azzurro ZR...

## IDEOLOGY

The idea of Azzurro was born in ITALY in 2009 to offer the sense of uniqueness to its owner. Rather than being a conventional or racing boat, it is an actual racing catamaran that exhibits luxurious characteristics of an elegant deck interior.

Azzurro is impressive at the dock as well as at high speed during races.

- **The two front overriding floats stand out on the bow of the boat** creating an impressive, dynamic and rather aggressive design.
- On the back the formula spoilers remind the viewer of the racing savage nature of the boat.

- The inside is equipped with 5 bucket style leather seats and it is felt like driving a luxurious car to great extent.
- The back reclining lounge sun bed is equipped with a retro leather design pillow.
- The enchanting racing car cockpit and leather wheel comprise in a perfect way in the seat comfort bench where the fridge is placed esthetically.

**Wanna Fall in Love?**

• 5 racing seats

- The multiple metal control levers refer to an airplane cockpit.
- The front leather dashboard is aesthetically perfectly interrupted by two instrument shed covers.
- Instead of hearing "what a beautiful boat is this", the aim to hear should be the question of "what is this".

- **Spray free cruising.** The passenger is not effected by the sea spray created by the hull as it is flown out symmetrically. Thanks to the double hull and the large distance between them, around 35% of the spray is thrown towards the center of the boat and therefore is eliminated by the horizontal part of the hull under the passenger seats.

- Inspired & Designed in Italy.
- Hand made in Turkey
- Highest, most severe quality standards.
- Production materials: full carbon or vacuum vinylester.
- Specialized machinery for humidity & temperature stable conditions for the production material stock room.
- 5 years unbreakable hull conditioned guarantee.
- No casualty or defect throughout the years.

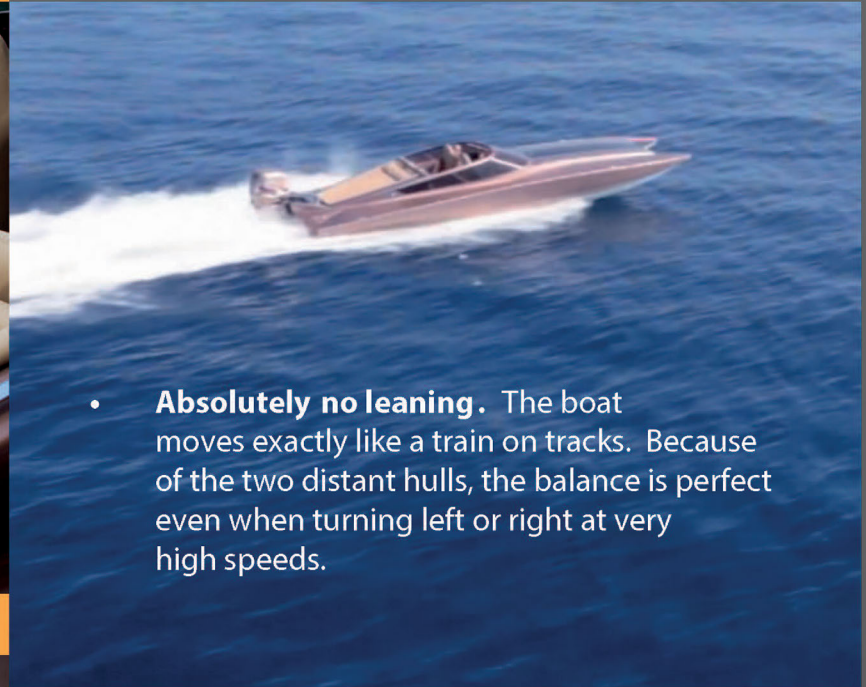

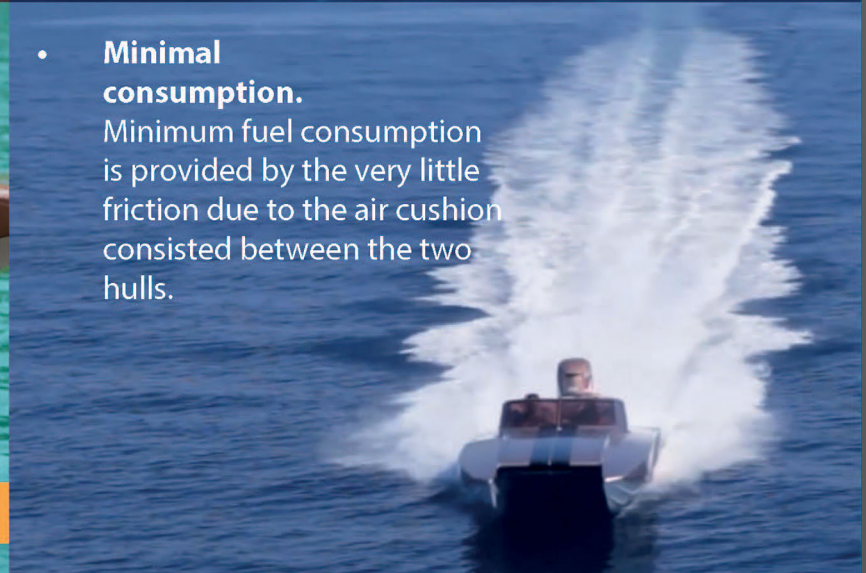

- Back storage space

- Front power searchlights

- **Absolutely no leaning.** The boat moves exactly like a train on tracks. Because of the two distant hulls, the balance is perfect even when turning left or right at very high speeds.

- **Minimal consumption.** Minimum fuel consumption is provided by the very little friction due to the air cushion consisted between the two hulls.

## Elegant Boat For Luxury Lifestyle

- **Absolutely straight balanced cruising.** The carefully calculated center of gravity provides the boat to move forward with the best angle. Up to 5 beauforts the boat cruises over the waves and when it lands after each wave, it always remains straight. Therefore it reassures a comfortable and safe trip for its passengers. If the weather is stronger than 6 beauforts then the boat is best driven keeping the wave flow on side. However it is always suggested to enjoy the potential and the limits of the boat in calm weather.

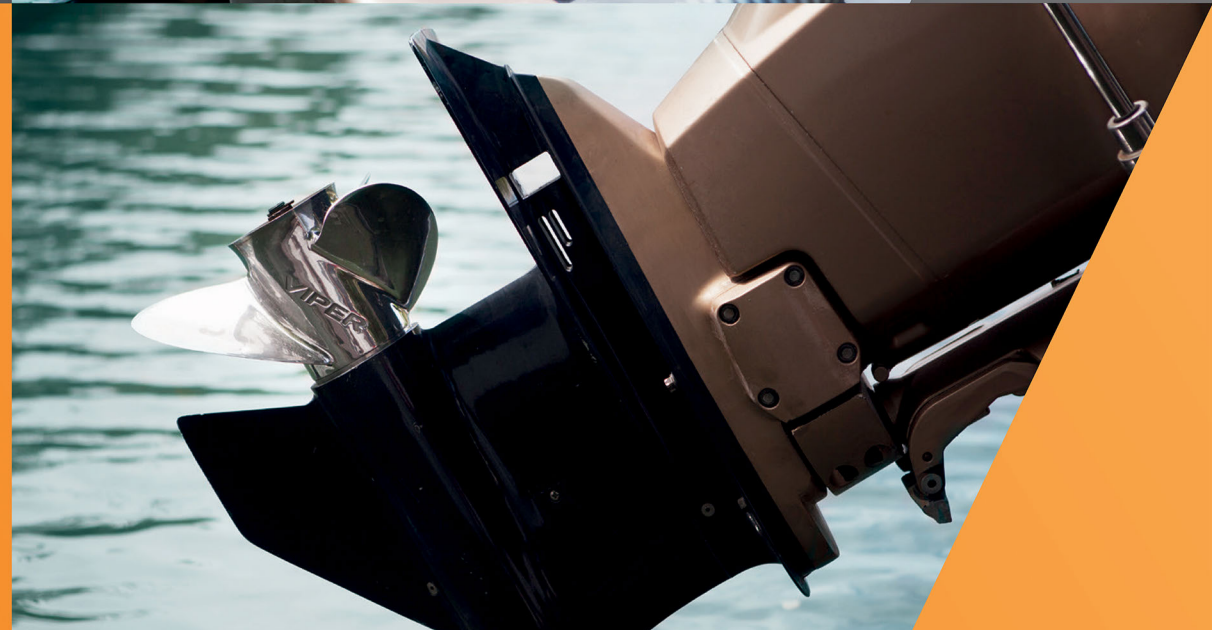

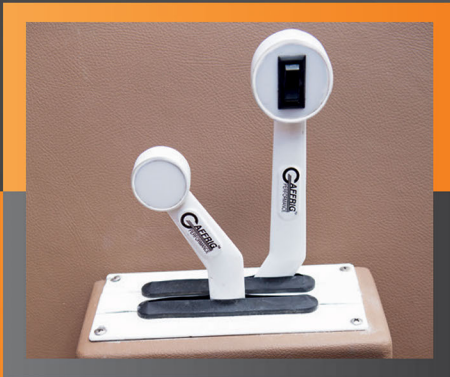

## ENGINE CHOICE

### EVINRUDE 250 H.O.

The engine's character is more civilized and smooth. It is best combined with a hydromotive propeller with 4 wings.

Max speed differs due to the chosen propeller.

According to the conditions of use, the optimum propeller will be chosen.

- **Air circulated dynamic boost cruising.**

The distance between the two hulls is 145 cm and also the surface between them is especially curved to take advantage of the best air circulation course.

- 2 sound amplifiers
- 2 subwoofers
- 4 midwoofers
- 4 twitter woofers
- AUX plug
- iPhone or Galaxy plug choice

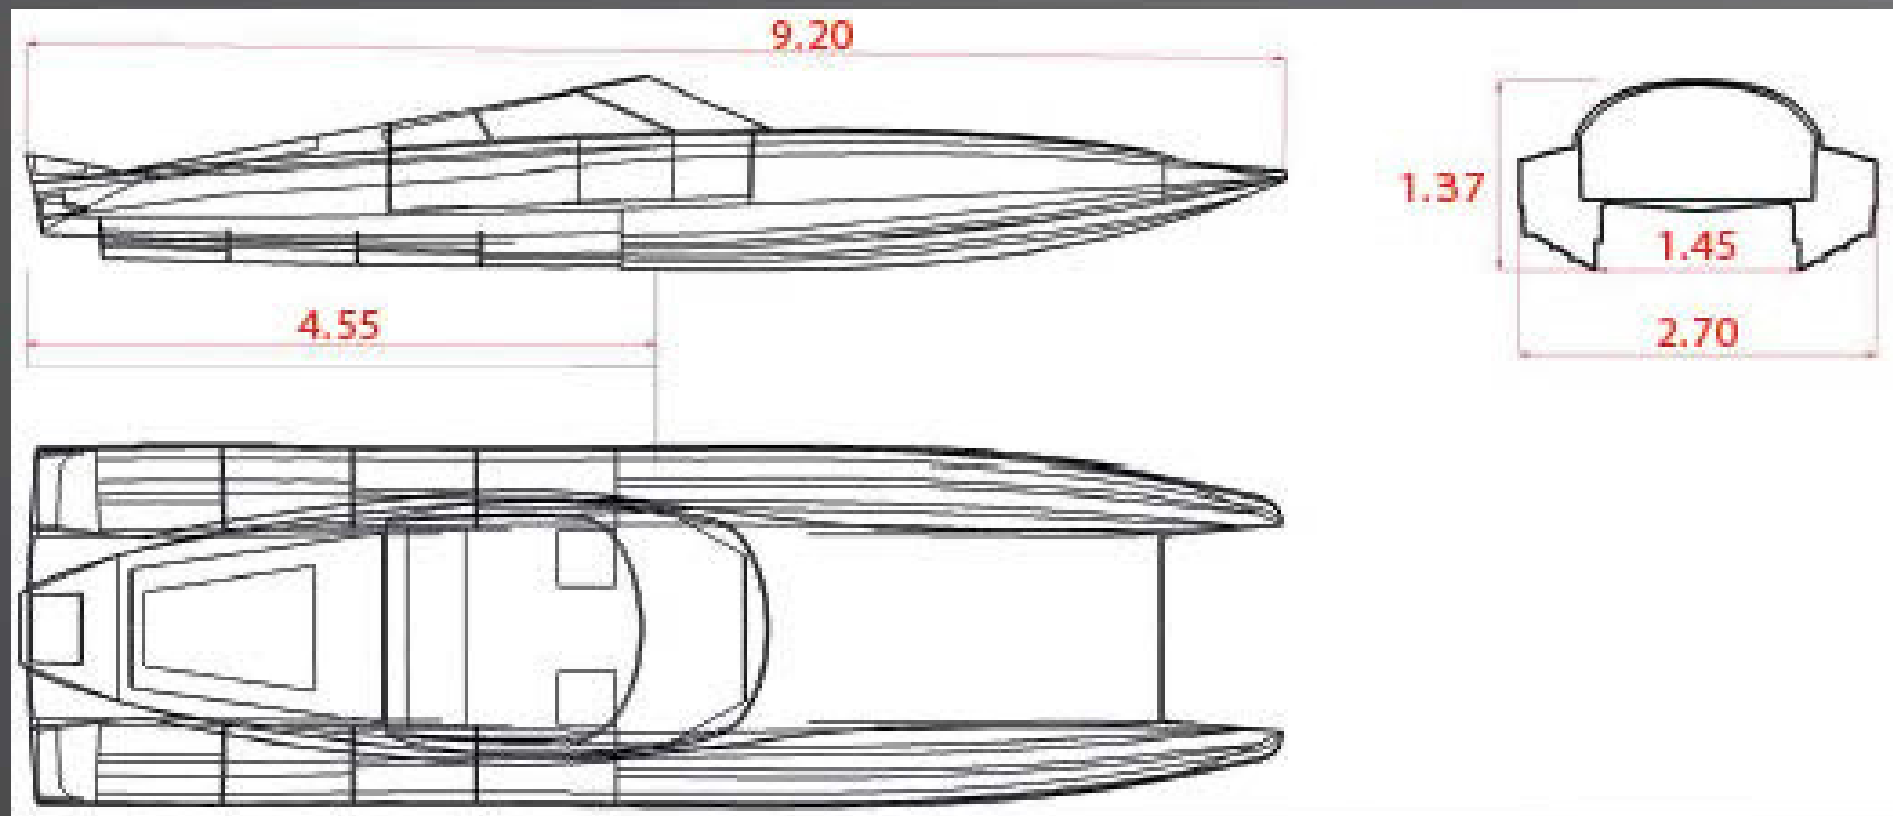

- Recessed way lights

## MODELS & TECHNICAL DATA

9,20 m
